Revolutionizing Healthcare Crash Cart Management Solution

Efficiency, Safety, and **Peace of Mind**

- Crash carts are a critical component of healthcare facilities, providing essential lifesaving equipment during emergencies.
- Smaller hospitals may experience one or two Code Blue events per month, while larger facilities may have multiple events daily
- An organized crash cart could be the deciding factor in a life-or-death situation

Key Features

SIMPLE ACCESS

Scan the crash cart's QR code for instant access to relevant audits

AUTOMATIC REMINDERS

Receive automatic reminders for audits, including notifications for missed deadlines, and alerts for managers

SIMPLE PROCESS

Streamlined process: Online audit forms with all necessary tests and documentation

RECORDS

Each audit is logged with team member details, including name, department, date, and time

REPORTS

Access and filter audit reports by relevant criteria

Benefits

Eliminate human mistakes and unfulfilled daily and monthly audits

Paperless solution. Easy access from any smartphone

Monitor the process daily and monthly. Get reports every day

Enhanced efficiency. Real-time updates and streamlined workflow.
