

# A self-service smart wheelchair solution

**Your hospital patients  
and guests need instant  
access to wheelchairs.**

**Do you know where yours are?**

**We are a self-service  
wheelchair solution that  
optimizes hospital  
operations, reduces costs,  
increases efficiency and  
enhances patient  
satisfaction through  
modular, aesthetic and  
user-friendly stations.**

**Patients and hospital staff generally lack simple, direct access to wheelchairs. Instead, they need to search or wait for availability.**

**Shortage or misplacement:**

Wheelchairs are often scarce and not easily accessible at key locations, requiring significant time and manpower to access..

**Operational Inefficiencies:**

Limited management systems and transparency result in operational clutter, leading to disorganization, additional costs and delays

**Equipment Security and maintenance:**

Equipment loss and faults raise maintenance costs, causing bottlenecks, delays, extended wait times and poor handoffs.

# Simple, secure, on-demand access to a wheelchair in under 1 minute

- **For patients and carers** – Self-service with free/paid options, refundable deposit, and multiple payment choices.
- **For hospital staff** – access via staff card for pick-up and return.
- Accessible at numerous strategically located stations.
- User-friendly, multilingual interface with SMS reminders.
- Enhanced and convenient user experience.
- 24/7 online service and support.

**Simple.  
Flexible.  
Scaleable.**

**Partnering  
with you.**

**Adaptable  
Business Model**

Monthly fee structure covering station costs, wheelchairs, software, operations and maintenance, BI analytics, and comprehensive Client and User support.

**User-Friendly  
Usage Terms:**

Most partners provide 2-4 hours free use for outpatients. Charges commence from the desired hour, with an option for extended 'rentals'.

**Diversified  
Revenue  
Streams:**

Advertising and sponsorship opportunities on stations and wheelchairs offer clients a shared means to offset monthly fees.
