

TrueClr™

Eliminates the risk of CAUTIs

- Preserve patient dignity, save time & manage cost
- Quality improvement & cost- savings to hospital
- Decreasing number of indwelling catheters placed for “convenience” in patients can decrease CAUTI rates.

"Imagining the future of urologic care that no longer risks the introduction of infectious, deadly organisms by traditional catheters, this is a revolution in medicine." **Jesa C. RN BSN**
