VERSATILE SOLUTION FOR BOTH MALE & FEMALE PATIENTS

Improvement
in UI at 3 Months*

Average Hygiene
Pad Reduction*

More Effective
Compared to Pelvic Floor
Muscle Training*

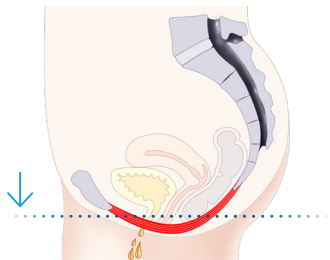

More Effective
Compared to Electrical
Stimulation*

HOW IT WORKS

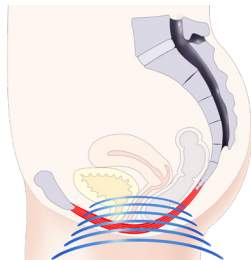

EMSELLA, using **HIFEM**® technology, induces thousands of Kegel-like **pelvic floor muscle contractions** in a single session.

These contractions re-educate and strengthen weak pelvic floor muscles, restoring neuromuscular control and **improving urinary incontinence in both men and women.**
