

KeriCure Medical Product Info

FIELD SHIELD WOUND DRESSINGS

Field Shield is a water-based, spray on wound dressing that provides intense moisture to wounds, antimicrobial protection, and localized pain relief at point-of-injury and throughout wound healing.

Field Shield Wound Dressing has been proven to mitigate burn expansion when applied at near point-of-injury and prevent infection development. Use in ALL Roles of care. Available in 0.5 and 1oz bottles, capable of managing 10 to 30 wounds, or 33% TBSA.

Antimicrobial – Kills multi-drug resistant bacteria and fungi within 10 minutes of application
